## Family Mental Health Collaborative Services

Saint Louis County's Department of Health is working with the Family Mental Health Collaborative (FMHC) to offer mental health services for County residents. If you are a past client of the Department of Health's Family Mental Health Service or a resident seeking more information on mental health services, please call (314) 729-4035.

The FMHC is a collaboration of non-profit mental health organizations with offices located throughout Saint Louis County. FMHC's primary focus is on meeting the mental health needs of children, adults and elderly. Services are offered on a sliding fee scale based on family income/insurance and include crisis intervention, counseling, assessments, case/care management, psychological testing, psychiatric evaluation and medication. All staff for FMHC are licensed counselors, social workers, psychologists and psychiatrists.

FMHC Agencies include: BJC Behavioural Health, Catholic Family Services, Jewish Family & Children's Service, Lutheran Family & Children's Services and Provident Counseling.
