who we are...

how to find us...

Our Vision...

We will be a progressive public health department providing a full array of services which includes assessment, policy development and assurances for health information, disease and injury prevention, and environmental health.

Our Mission...

Saint Louis County Department of Health promotes optimal health for people who live, work or visit the county. This is accomplished by monitoring and assessing the public health status of the county, and developing programs and/or policies that prevent illness or injury.
