Trail etiquette is as much about safety as it is courtesy.

Our multi-use trails have become very popular and are sometimes very congested with a high potential for user accidents. Please take the time to consider your safety and the well being of those around you by following the trail rules. Thank you for your cooperation!

Safety Tips:

- **Parking:** Always lock your vehicle and be sure to keep valuables out of sight. Never hide your keys on or in your car.
- **Be Alert:** For safety and for communicating with others, wear only one ear bud when listening to devices on trails. Always be on the lookout for other trail users.
- **Observe park regulations & speed limits:** You are responsible for knowing and complying with park rules and regulations.
- **Leave no trace:** Please remember to pick up all of your trash and animal waste so that our parks stay clean and everyone can continue to enjoy our trails.

**Cyclists and Skaters**

You have the responsibility to operate your bicycle or skates in a safe manner in accordance with St. Louis County Ordinance 616.065(3). All persons using County Park trails shall do so in a careful and prudent manner and shall exercise the highest degree of care. Trails shall be used at a speed that does not endanger the person or property of another. Always announce yourself when passing other users by clearly saying “On the Left” and yield to approaching traffic before you pass.

**Walkers & Runners**

Walk/run to the far right. No more than two abreast will make passing safer for all users.

**Equestrians**

Ride on trails designated for equestrian use only. As a low-impact precaution, please refrain from riding in muddy conditions.
